This preschool is an extension of the ministries at Anthony Wayne First Church of God

2017-2018 School Year

**Ministering to
preschool
children ages
3 and older.**

Why Is Attending Preschool Important?

Preschool benefits children in many ways, including:

Language and Literacy: Daily activities, develop reading and writing skills and introduce important literacy concepts.

Math and Science: Preschoolers are introduced to cognitive skills such as patterning, number recognition, counting and graphing.

Creativity and Imagination: Students showing their abundant creativity through dramatic play, music and art.

Physical Development: Daily activities develop large motor skills such as running, jumping, skipping, throwing and kicking.

Preschoolers have opportunities to work in large groups, small groups, pairs, and individually. Group activities help students develop social skills and provide opportunities to practice listening sharing, taking turns, negotiating skills, and cooperating skills. All these skills help prepare preschoolers for continued success as they begin kindergarten.

Our Preschool Ministry

Children are a gift from the God; they possess a fire that is fueled by curiosity, imagination and wonder. When this fire is paired with the focus and knowledge of a well-equipped teacher, beautiful things begin to happen. We believe that a child's first experience in the educational system should excite, inspire and prepare them for the years to come. As a ministry, we are an extension of the family and church, all of which are intended to serve the whole child, spiritually, intellectually, physically, emotionally, and socially. Our priority is to disciple your child, come along side your family and above all else, share the love of Jesus Christ.

School Philosophy

The Purpose of Anthony Wayne Preschool is to build a firm foundation in faith and education. We provide a Christian environment and program which will allow each child to develop to their maximum potential while fostering the unique qualities that God has given them.

Anthony Wayne Preschool uses Early Childhood Education Curriculum that focus on the following five developmental areas:

Spiritual: Children are considered a special and unique creation of God. Children will become familiar with Jesus and other Bible stories throughout the year to help them understand that Jesus loves them and He can be their Forever Friend.

Emotional: Children experience success and gain confidence as they learn about themselves and acquire new skills. We foster emotional development in a supportive atmosphere, providing individual choices and responsibility.

Social: Children thrive in an atmosphere that encourages positive communication. We offer small and large group experiences that allow children to practice social and communication skills with friends.

Cognitive: Children are challenged to experiment, observe, ask questions and problem solve through hands on learning. Activities and projects are meaningful to the child's world and intentional in their teaching.

Physical: Children are offered the opportunity to develop both fine motor and gross motor coordination. This is achieved through experiences in art, writing, classroom manipulatives, active games and movement activities.
